B.B.06 - Alternative Use of School Board Facilities Contiguous to Parish Churches - PROCEDURES

1. When it is decided by the Board to cease operating school programs within a school contiguous to a parish church, the subsequent use approved for the school facility shall not, at any time, affect the long-term harmony of use, which existed between the school and the Church, and shall not affect the dignity afforded to local churches.
2. A school building shall not be put to another use until such time as sufficient and appropriate consultation has taken place between the Bishop, the local pastor and the School Board on the appropriateness of the proposed alternative use. The proposed subsequent use of the facilities must be acceptable to the Diocese, the parish and the Board.
